## START OF THE SEASON IS A STORMER!

April

After what seems a lifetime of waiting, it's finally arrived. A brand new Malibu Wakesetter VTX! After every millimetre was carefully inspected and given the ok by Si, Gwyn, Jamie and Tony it was finally let loose on Tattershall Lake with Jamie Foxall having the honour of the first set. Then, at about 1400hrs, Gumby was roused from his pit and ambled over to have a look...

The boat not only looks good but it performs brilliantly with a great wake, lovely response and lots of room for people to jump in and watch the boarding.

It's already warm enough to wear a shorty and the nice weather has seen the lake looking pretty flat.

RAF Wittering attempt massive advertising ploy.

RAF Wittering were part of a 'health and wellbeing day' where they set up a stall and showed the Station what wakeboarding and water-skiing is all about. The boat was parked outside the gym with Ross and Richie keeping the tunes pumping and Jo and Juliette manning the stall inside with a wakeboard DVD blasting out and an Endo board to have a go on. It was a massive success and has hopefully created a lot of new interest on the station.

### TOP TIP

MOTORISTS. Pressing your 'fog lights' switch a second time after the fog has cleared will actually turn your fog lights off.

	8				2		
			8	4		9	
		6	3	2		1	
	9	7				8	
8			9		3		2
	1				9	5	
	7		4	5	8		
	3		7	1			
		8				4	

This month has already seen two 'Section Days' with Tony operating one from RAF Cranwell and Ross operating for RAF Wittering. Keep 'em coming!!!
